

Wisconsin FAASTeam presents:

Suddenly a Glider Pilot EAA Chapter 252 IMC Club and Chapter Joint Meeting

This will be a special joint meeting of EAA Chapter 252 and the EAA Chapter 252 IMC Club (formerly the Fox Valley IMC Club). The scenario, involving loss of power in flight, will be of interest to both IFR and VFR pilots. After this month the EAA Chapter 252 IMC Club will return to its normal meeting time (third Tuesday of the month) and usual location (EAA Aviation Center Leadership Classroom).

Use real world scenarios to increase your level of safety. Safe flying is a matter of mitigating risk, personal minimums and standard operating procedures. If you have and use sound judgment, establish personal minimums and good procedures, you can enjoy a long and successful career of flying. The EAA Chapter 252 IMC Club provides organized "hangar flying" focused on building proficiency in flying.

Directions: North side of KOSH. Head east on W 20th Ave. After passing Post Office and Knapp St., look for Chapter 252 sign and turn right into the parking lot. Enter hangar via door from parking lot.

A message from the National FAASafety Team Manager

Invite a fellow pilot to the next WINGS Safety Seminar in your area.

Sign up for the FAA's safety services at www.FAASafety.gov!
